SUBJECT INDEX

Acacia Georginae, 204
Achillea millefolium, 208
Acid phosphatase, 44
Acne, 120
Adenine nucleotides,
  release from platelets, 176, 177
Alkaline phosphatase, 42-45
Allergic reactions, 36-41, 165
Andhra Pradesh (India), 185, 190
Arteries, calcified, 24-27

Bone
  fluoride in, 128, 138, 218, 219
  fluoride related to age, 81, 85, 218, 219
  histology, 95, 96, 128, 138
Bone meal, 101
Bone mineral, 214

Calcitonin
  in bones, 29
  in plasma, 189
Calcium, 101, 213
  low diet in fluorosis, 99
  release from platelets, 176
  in arteries, 26
    spinal cord, 30, 31
    thyroid, 29, 30
Chizzola maculae, 27
Cholinesterase, 44
Copper, waterborne, 197
Creatinine, clearance in fluorosis, 34, 35
Creatinine phosphokinase, 16

Defluoridation, 104
Dental
  prophylaxis in Cuba, 216
  changes in fluorosis, 191
  toothpaste, 120
Dermatitis, 38
Dichapetalum cymosum, 204

Fluoride
  accumulation in soft tissue organs, 6, 7
  analysis, 54, 61
  balance studies, 102, 138-145
  blood platelets, 173-184
  clearance in fluorosis, 34
  distribution in plants, 210
  effect on
    arteries, 26, 27
    blood platelets, 173-184
    bone metabolism, 213
    leaves, 64, 150
    muscle, 9-18
    platelets, 173-184
    thyroid, 105-116
    vegetation, 159
  excretion in fluorosis, 142
  in
    antelope, 78
    bone, 128, 136, 218, 219
    bottled water, 201-203
    cereal, 116, 117
    deer, 87
    elk, 79, 87
    fluorspar wastes, 155
    fruit, 117
    grass, 85
    iliac crest, 218, 219
    legumes, 59
    meat, 117
    mineral water, 201-203
    plasma, 219
    pine needles, 63-74
    red fescue, 162
    sheep, 76, 77, 79, 80, 86
    soft tissues, 7
    soil, 162
    tea, 140
    teeth, 95, 140
    urine, 216
    ungulates, 79
    vegetation, 159
    water, 102, 125, 194, 195, 197
  ingestion in fluorosis, 140
  intake in infants, 117
  intake, dietary, 213
  movement in leaves, 149, 151

Fluoride (cont.)
penetration into leaves, 148
platelets, 173-184
uptake through tea, 145
urinary excretion, 144
water, related to fluoride in teeth, 125
Fluoride poisoning
alkaline phosphatase in, 44
allergic reactions, 36-41
dermatitis, 38
enzymes in, 12, 14, 16, 42, 44, 46
fluoride levels in bones, 49
in deer mice, 47-53
industrial, 165, 170-173
stomatitis, 38
target organs, 1
teeth in, 49, 52, 167
weight loss, 48
Fluoroacetate, 204-212
Fluorosis, endemic
arthritis in, 2, 19-23
balance studies, 138-147
case report, 168
excretion of fluoride, 142
genu valgum, 20, 185-200
heart, 18
histology, 95, 96
hypercementosis of teeth, 95
ingestion of fluoride, 140, 144
in children, 94
in guinea pigs, 167, 168
in India, 185-200
in Punjab (India), 139
joints, 21
kidney function, 33, 35
musculature in, 9-18
organs involved, 1
parathyroids, 97, 189
radiology, 93, 95, 186, 187
serpentine, 98-104
skeletal changes, 71
symptomatology, 5
teeth, 95
treatment
bone meal, 101
calcium, 99
serpentine, 98-104
vitamin C, 167
ultrastructural changes, 11, 12
Fluorosis, industrial
calcitonin in plasma, 189
dyspnea, 165
fluoride content, 128, 136
histology of bone, 95, 96, 127-137
hydroxyproline, urinary, 188
intake of fluoride, 137
pulmonary disease in, 165
spinal cord in, 30-32
urinary fluoride, 215
Fluorosis, experimental
in deer mice, 47, 53
teeth in, 49, 52
Fluorspar mines
festuca rubra, growth, 156, 162
wastes, constituents, 153, 155

Genu valgum, 20
calcium, 200
dietary, 200
dental changes in, 192
epidemiology, 190, 193
incidence, 192
radiology, 187, 200
relation to trace metals, 196
water analyses, 194
Glutamate-oxalacetate transaminase, 44
Glutamate-pyruvate transaminase, 44

Helianthus annuus, 205-208
Hydrogen fluoride, effect on leaves, 64
Hydroxyproline, 188, 189
Hyperparathyroidism, 95

India, 139, 185-200
Industrial fluorosis, 165, 170-172
Isocitric degydrogenase, 44

Joints, 19, 23

Kenhardt disease, 72
Kidneys in fluorosis, 33-35

Lactate degydrogenase, 44, 176
Leaf movement in, 149, 151
Lumpy jaw, 76

Magnesium, 101, 197
Mandibles, 77, 85
Mineral water, 201-203
Mice (deer), 47-52
Molybdenum, 198
Monkeys (rhesus), 213
Muscle in fluorosis, 9-18
Myositis ossificans, 18

Osteoporosis, 213, 214

Parathyroid hormone, 97, 189
Peromyscus maniculatus, 47-53
Phosphorus intermediates in platelets, 177
Platelets, 173-184
Punjab (India), 185

Radiographs, 213

Serotonin, release from platelets, 176, 177, 179
Serpentine, 100-102
Silica, role in fluoride analysis, 60
Sodium fluoride, 208-214
  mouthwash, 216
Sodium monofluoroacetate, 204-212
Soil, fluoride content, 162
Spinal chord, 30-32
Succinic dehydrogenase, 12, 14

Teeth
  caries, related to their fluoride content, 125, 163
  enamel
    biopsies, 124
    fluoride, 124, 125, 163, 166, 217
    fluoride uptake, 217
    in fluorosis, 191
  hypercementosis, periapical, 95
  mouthwash, 216
Thyroid gland, 29, 30
Toothpaste, 120, 121

Urea, clearance in fluorosis, 34, 35
Urinary, excretion of fluoride, 144
Urticaria, 37, 39
Ultrastructural changes, 10
  in muscle, 10
  in bone, 127-138

Vitamin C, 167

Water treatment, 102

Zinc, waterborne, 197
